PROFESSIONAL EXPERIENCE

Backend Developer at Zuvi8 Creatives

Aug 2023 - Aug 2024

- Managed both frontend and backend development, integrating advanced technologies for seamless user experiences and system performance.
- Designed and built responsive, dynamic web applications and software interfaces using React.js, Next.js, and TypeScript. Implemented form validation and data handling using Zod library.
- Implemented load balancers to ensure high availability and distribution of incoming traffic across multiple servers.
- Managed backend operations,

PROJECTS

No-Code AI Workflow

- Built a No-Code AI Workflow Builder using Next.js, Node.js, Appwrite, and OpenAI API, allowing users to create AI-powered workflows with a drag-and-drop interface. Designed a smooth, intuitive UI with React Flow and integrated real-time workflow saving. Currently enhancing AI execution and user experience to make it developer-friendly and scalable.

Instahyre Clone - AI-Powered Job Matching Platform

- Developed an Instahyre-inspired job portal using React, Node.js, and Appwrite, focusing on AI-driven job recommendations. Built secure authentication, real-time data management, and a smooth UI for recruiters and job seekers. Showcased full-stack expertise with scalable architecture and optimized performance.
